Comment Area

- Overall, i enjoyed being in this class even though it is a requirement. Professor La plant makes learning fun and provides many real world examples as she is explaining phenomenons. I do believe that we should have more time to turn in the final Paper . I believe we should take the final on the last day of class and have that extra week to prepare our papers. Overall, i did learn a lot about my major through this class and it has made me think more about what i wanna do after graduating. She is a very energetic teacher especially for a 9:30am class and i love her personality.
- THE BEST PROFESSOR I'VE HAD THIS FAR!
- Great teacher who explains things very well and made the course rather interesting. She motivated me to learn and look into the material more than any other professor I've had this semester. She also related a lot to the students which helps.
- I wish she taught my stats class.
